Featured Speaker

Anne Jorgensen RN, MS, NNP
Anne M. Jorgensen, RN, MS, NNP, is a clinician, educator, author, speaker, and national nursing knowledge leader. Anne is currently the Director of Professional Practice, Education, and Research for the Neonatal Advanced Practice service at Riley Hospital for Children, a level IV NICU at Indiana University Health Medical Center in Indianapolis. With over 30 years of "hands-on" experience, Anne has a unique understanding of clinical priorities, the needs of patients and families, professional issues, and the challenges faced by healthcare professionals in today’s demanding healthcare environment. A widely published author and perinatal consultant, Anne’s clinical interests include late risk assessment and clinical decision support tools for late preterm infants, disaster response and emergency preparedness in high-risk perinatal and neonatal settings, leadership development, and interprofessional practice and education in acute care clinical settings.

Conference Speakers

• Jennifer Erkinger, MS, RRT-NPS, AE-C, C-NPT, Children’s Hospital Respiratory Clinical Specialist, External Pediatric Transport Coordinator. Neonatal ECMO Coordinator, Penn State Health Children’s Hospital
• Lori Brittingham, MSN, RN, CNS, ACCNS-N, Neonatal Clinical Nurse Specialist, Reading Hospital System, Past President, NANN

Conference Planning Committee:
Martha Lee, BSN, RNC-NIC
Lorene Newman, RNC-NIC
Elizabeth Matteson, CRNP, NNP
Mary Lewis, MSN, RNC-NIC

Location

Penn State Health
M. S. Hershey Medical Center
University Conference Center
30 Conference Drive
Hershey, PA 17033

Take PA-283 West toward Harrisburg. Take Hershey exit PA-743; turn right at exit ramp. Take PA-743 North toward Hershey; turn left at W. Governor Rd; turn left at third traffic light onto University Drive; then turn right onto Campus Drive. Turn right on Conference Drive; Conference Center is on the left. Free parking available to the right and in front of the Conference Center.

Hot Topics in Neonatal Nursing

Tuesday, April 16, 2019
7:15am until 4:15pm
Milton S. Hershey Medical Center
University Conference Center
Hershey, PA 17033

Presented by the:
Program Objectives

- Describe the evidence surrounding maternal overweight and obesity and its serious impact on the mother, fetus, and newborn and long-term health outcomes.

- Identify the implications of maternal overweight and obesity on the perinatal healthcare delivery system and the need for a new diagnosis, ‘Infant of Obese Mother.”

- Describe the population of babies that benefit from treatment with buccal glucose gel for transient hypoglycemia.

- Summarize the evidence supporting the use of buccal glucose gel in neonates with uncomplicated transient hypoglycemia.

- Describe common genetic disorders among Amish and Mennonite populations.

- Outline the history of neonatology in the United States and affirm a purpose and passion for neonatal nursing.

- Contrast the various modes of neonatal ventilation used in NICUs.

- Analyze the pros and cons of each ventilator mode as it relates to neonatal lung physiology and development.

- Examine treatment approaches for neonatal abstinence syndrome.

- Identify strategies to optimize care for infants being treated for NAS.

An application for 6.75 nursing CE contact hours will be submitted; to be awarded upon successful completion of this program.

Program

7:15am – 8:00am Registration & Breakfast
